Not too shabby for an almost 36 year-old, but what's really important about this photo, other than the fact that I can't believe I actually pulled it off, is that men and women need to understand that we are ALL onions. We all have special attributes, both physical, and mental which make each of us unique and special. One doesn't need to be "only smart", "only pretty", "only funny", "only anything".

YOU are the one who defines who you are, and from that, it is your duty to allow others to discover what lies beneath the layers. #weareallonions

And anyone in the SoCal area who wants to look and feel like a zillion dollars needs to call **Laura Bravo-Mertz (760) 720-9796 @ Solifoto Boudior**, STAT.
